

425 WHITEHEAD AVE.  
SOUTH RIVER, NJ 08882

# COMMITMENT

- Flexibility to react immediately to changing needs
- Direct liaison with plant manager and company executives
- Packaging resources

- Bulk holding tanks
- Offer solutions as problems arise
- Adaptable to a wide range of materials, package sizes, shapes, quantities
- Will run one pallet to truck loads of products

# Capacity

- 50,000 gallon bulk storage
- Dry bulk storage
- 3 mix tanks on load cells
- High speed fill lines
- Dry blending/dry packaging
- 90,000 sq. foot warehouse
- Chillers
- Freezer capacity
- Process boiler for steam production
- Dedicated resources

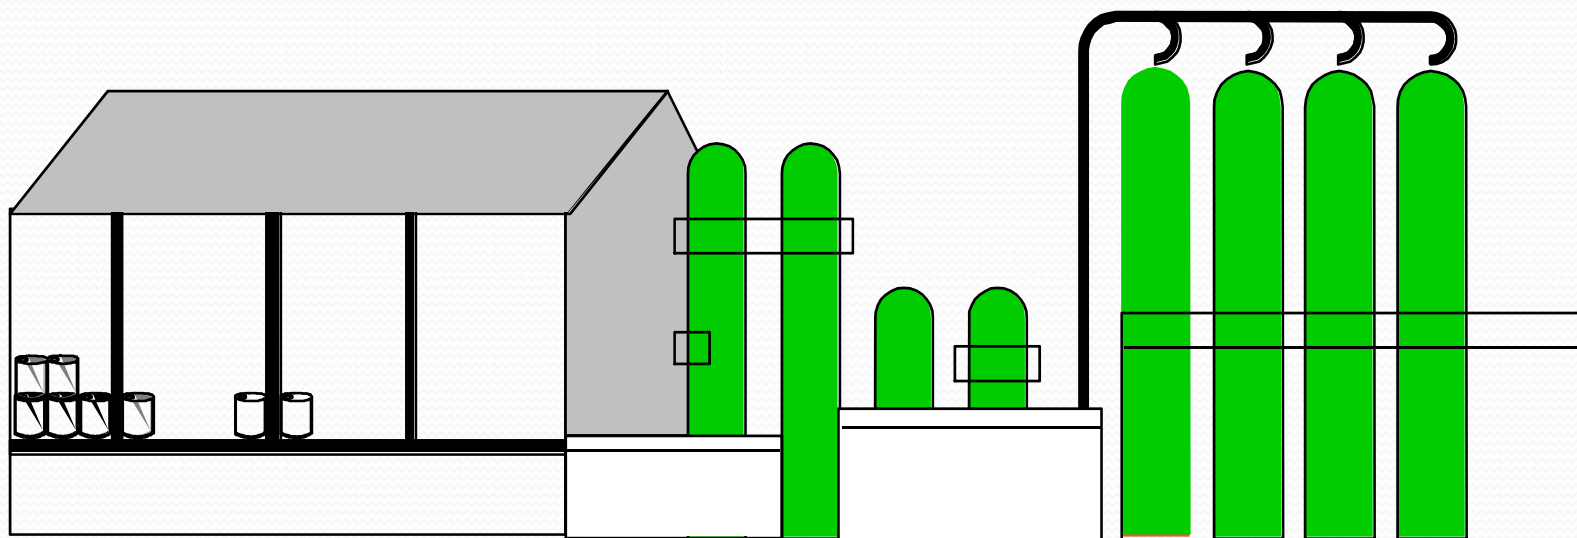

# Capabilities

- Powder Manufacturer
- Liquid Manufacturer
- Solid Manufacturer
- Toll Manufacturer
- Raw Material Sourcing
- Field Training
- Reverse Engineering

- Blending
- Custom Multi-color Labeling
- Silk Screens
- Contract Manufacturing
- Bar Coding

- Incoming quality control of raw materials.
- All production done under strict QC standards
- Successfully audited by Underwriter's Lab to ANSI Standards
- Complete Maintenance schedule for all equipment performed by in-house experts.
- Regular calibration
- Lab pre-testing for all New Products
- Quality control checks during manufacturing
- Packaging QC for quality and accuracy
- Raw material sourcing assistance
- FDA registered
- All scales and equipment independently calibrated

# STANDARD TEST PARAMETERS

- pH
- Titration
- Per Cent Solids
- Viscosity
- Cloud Point
- Foam Height
- Available Chlorine
- Anionic Titration
- $P_2O_5$
- Available Oxygen
- Active Quaternary level

# Liquid Production

- Rotary Fillers
- In Line Fillers
- Load Cells
- Manifold System for Liquid Distribution
- Day tanks
- Stainless blend tanks ranging in size from 50 G to 3500 G
- Dedicated pumps, hoses, and nozzles
- Ability to package ounces, quarts, liters, gallons, through t

# er Production

- Marion Mixers with up to 10,000 pounds capacity, each equipped with paddles.
- Ribbon blenders with up to 5000 pound capacity.
- Mateer Burt Filler
- AMS Filler
- 4 CLYBOURN Fillers
- WEIGH PAK Packet filler

# Production

- Thermal jacketed kettles with up to 5000 pound capacity.
- Ability to produce in excess of 50,000 pounds per day.
- Unique, wide offering of solid products for wide cross section of industries
- Custom proprietary technologies
- Several patented products

## ISO 9001: 2015 Certification

ISO registration demonstrates Envirochem's continuous commitment to improving product quality and our customer's satisfaction. Focusing our efforts on quality management, allows us to meet and exceed customer requirements. ISO Certification indicates dedication & leadership in our industry.

International Standards Organization guiding principles are:

Principle 1: Customer focus

Principle 2: Leadership

Principle 3: Involvement of people

Principle 4: Process approach

Principle 5: System approach to management

Principle 6: Continual improvement

Principle 7: Factual approach to decision making

Principle 8: Mutually beneficial supplier relationships

ISO certification provides discipline and formality to Envirochem that is needed to sustain growth. ISO registration enables Envirochem to show its commitment to your clients, prospects, and business associates. ISO indicates dedication and leadership in our industry and focuses on the effectiveness of Envirochem's quality management system in meeting CUSTOMER requirements.

Survey after survey has conclusively proven that companies using a FORMAL & STRATEGIC approach toward quality management:

- Outperform their industry sectors in profitability
- Outperform their industry sectors in shareholder value
- Enjoy higher levels of customer satisfaction & loyalty
- Experience reduced operating costs
